

# GUJARAT REFILLING CENTRE (GRC)

**A Small Sustainable Business Leader**

**॥ पर्यावरण देवो भव ॥**

# JOURNEY 1993

- The journey of GRC Group of Companies started before **20 years i.e. in 1993.**
- With the aim for providing **cost effective** Printer Cartridge Refilling Services.
- As the time passed we realized that refilling was an **unprofessional service harmful** to the environment.

# Year 2010

So with the new aspiring vision of protecting environment and to provide a customize service in 2010 we entered into **Recycling** (RE-MANUFACTURING) service.

# Year 2011

- This initiative was appreciated and supported by **Science and Technology Department, Government Of Gujarat during Vibrant Gujarat 2011.**
- During this Summit **MoU** was signed.

# Year 2014

- In 2014 even Gujarat Pollution Control Board (GPCB) granted us Authorization as **“Registered Recycler”** for “Toner Cartridge Recycling”.
- Not even this but our project also received **Host Country Approval** for CDM.
- This gives GRC a stand in international market with **leading position in recycling industry** in INDIA.

**Our Project has also been awarded by the  
former Chief Minister of Gujarat**

# ABOUT OUR PLANT

- The setup of the plant is as per **CPCB norms.**
- The waste of cartridge is treated as per Environmental norms of **Pollution Control Board.**
- The capacity of the plant is to recycle **160000 cartridges per annum.**

# CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

- This will help to **reduce 400 ton** Certified Emission Reduction (CER) per annum.
- Approximately **160 tons of solid** hazardous waste will be prevented from going to landfill per annum.

# Advantages

Recycled cartridge is **70% less costly** than OEM Cartridge without compromising with the **Performance** of cartridge in terms of **Quality** and **Yield**.

# OUR VISION

- To start around **180 +** such units in **26 states** in India through Joint Venture.
- This will result into **reducing 33750 ton CER** per annum and **13500 ton solid hazardous** waste will be prevented from going into landfill.

# From this Platform

We **Appeal** to all the sustainable business leaders of India present today to help to **Publicize** our project for its easy acceptance and implementation.

We would be obliged if any of the corporate **Associate with us for Expanding this Project** in India.

**FOR SUSTAINABLE ENVIRONMENT...**

# RECYCLING

THE POSSIBILITIES ARE ENDLESS.....

## THANK YOU
